

SmartPark

MANAGE CAR PARKS BETTER

SEAMLESS PARKING SOLUTION

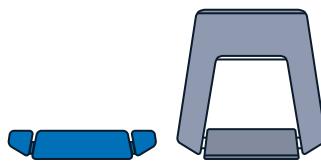

SmartPark is the parking lock agnostic car park management platform which enables real-time parking lot availability and reservation service management and delivery!

FEATURES

Consolidate parking lot availability

Automated parking scheduling mechanism to predict availability & manage your parking lots.

Hardware enabled parking as a service

On Premise hardware enables reservation of parking lots for important events or users with special needs.

Additional Revenue Stream

Deliver premium reserved parking services, manage dynamic parking rates and collect with integrated payment gateway.

SMART PARK HARDWARE DEVICE

- IP67 Certified Smart IoT Lock - protection against dust and immersion in liquids between 15cm and 1 m in depth
- Incorporates vehicle detection sensors and LED lights for alerts
- Sturdy - withstand weight of up to 2000 kgs

HOW DOES IT WORK?

1

CONTACT US

for hardware installation & platform setup

2

PROVIDE PARKING

as a service to your consumers

3

MONITOR & MANAGE

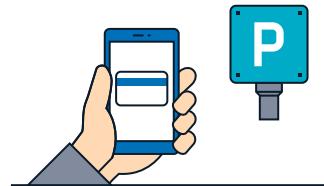

the parking lots

U S E - C A S E S

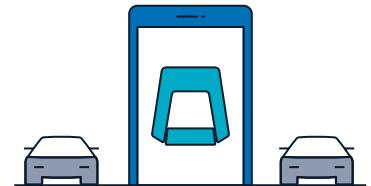

ENABLE PREMIUM PARKING SERVICE

Share your parking availability.
Drivers search for preferred lots

Drivers reserve the parking lot and
make payment with the integrated
payment gateway from your application

Drivers drive to the parking location
and use mobile app to unlock the lot
reserved for them

RESERVED PARKING SERVICE DELIVERY

Provide your tenants with reserved parking service and mobile
app to access the lot.

SERVE VIP & SPECIALLY ABLED

VIP or disabled visitors? Replace traffic cones with remotely
controlled locks to greet them.
